## EDUCATION

### York University, Toronto Canada

Post-Graduation Certificate in Back-End and Blockchain Development

Sept 2024 - May 2025

Post-Graduation Certificate in Cyber Security Operations

Sept 2023 - May 2024

### The Maharaja Sayajirao University, Vadodara India

June 2020 - May 2023

Bachelor of Computer Applications (Honours) | Cumulative GPA: 8.99/10.00

- Award: Rank 1<sup>st</sup> (Gold Medal) BCA Batch 2020-23

## WORK EXPERIENCE

### Web Developer (May 2023 - August 2023)

Creative Bird Studio, India

- Developed and deployed React.js and Node.js web applications, leading to a 25% increase in user retention.
- Designed and optimized MongoDB databases, reducing query response times by 30%.
- Built an automated order tracking system, enhancing operational efficiency by 40%.
- Collaborated with cross-functional teams to debug, document, and deploy scalable solutions.

### Web Developer Intern (January 2023 - April 2023)

Creative Bird Studio, India

- Contributed to the development of a React-based UI and streamlined Node.js backend services.
- Ensured data integrity by managing MongoDB and SQL databases.
- Assisted in unit testing and debugging, ensuring 99% application stability.
- Maintained detailed technical documentation for development workflows.

## ACADEMIC PROJECTS

### ProfileX.dev - GitHub Profile Readme Generator

- Built a React.js & Bootstrap web app that enables developers to create dynamic GitHub profile READMEs.
- Deployed on Vercel for fast and scalable hosting. Project Link - <https://www.profilex.dev/>

### Learning Management System (LMS) – The Digital Workstation

- Developed a MERN stack e-learning platform - user authentication, role-based access, real-time content updates.
- Implemented REST APIs and enhanced MongoDB queries. Project Link - <https://thedigitalworkstation.netlify.app/>

### Café/Restaurant Management System – 78 Degree Cafe

- Designed a QR-based food ordering system with real-time kitchen ticketing, enhancing efficiency by 35%.
- Built using React, Node.js, Express, and MongoDB. Project Link - <https://78degreescafe.netlify.app/>

## LEADERSHIP & OTHER AFFILIATIONS

### Vice President, Google Developer Student Club – York University

June 2024 – Present

- Led the recruitment and onboarding of core team members, building a diverse and effective tech community.
- Launched a targeted member outreach initiative on Discord, resulting in a 25% increase in event attendance through strategic announcements campaigns; enhanced overall community participation and visibility.

## CERTIFICATIONS

Front-End Web UI Frameworks and Tools - The Hong Kong University of Science and Technology

June 2021

Web Development - University of California, Davis

May 2021

## TECHNICAL SKILLS

**Backend and Database:** Node.js, Express.js, REST APIs, GraphQL, WebSockets, MongoDB, SQL.

**Frontend:** React.js, Next.js, Redux, Bootstrap, Tailwind, JavaScript, HTML, CSS.

**Blockchain:** Solidity, Ethereum, Truffle, Hardhat.

**Languages:** Python, Java.

**DevOps & Other Tools:** Git, GitHub, Jest, Postman, Docker, Kubernetes, AWS, GCP, GitHub Actions, CI/CD Pipelines.

**Soft Skills:** Collaboration in Agile teams, Adaptability, Critical Thinking, Scrum-based development workflows.
