A Gold Medalist in Bachelor of Computer Applications, and a Full-Stack Developer with primary focus on front-end development. Experienced in implementing business applications using React, Nextjs, Nodejs, GraphQL, Expressjs and NoSQL DB, with strong command on languages like JavaScript and Python.

SKILLS

Web Development: React.js, Next.js Redux, Tailwind, HTML, CSS, Node.js, Express.js, REST APIs, MongoDB, SQL.

Languages: JavaScript, TypeScript, Python, Java.

DevOps & Other Tools: Git, GitHub, Jest, Postman, Docker, AWS, GCP, GitHub Actions, CI/CD Pipelines, Figma.

Soft Skills: Collaboration in Agile teams, Adaptability, Critical Thinking, Scrum-based development workflows.

WORK EXPERIENCE

Creative Bird Studio

Vadodara, India

Full Stack Developer

January 2023 - August 2023

- Rebuilt a legacy e-commerce website from HTML to React.js in 25 days, cutting page reloads time by 70% and implementing dynamic routes for seamless user navigation resulted into enhancing user experience.
- Developed a content-based filtering product recommendation system for the checkout page, increasing average order value from ₹1200 to ₹2300 through effective upselling and cross-selling strategies.
- Migrated REST API to GraphQL, reducing API query calls from average of 7 to 3 queries through query batching and minimizing data over-fetching by 70% for optimized performance.

The Digital Workstation

Vadodara, India

Full Stack Developer - Freelance Project

October 2022 – December 2022

- Built a scalable Learning Management System using the MERN stack, efficiently handling 300+ students, 30+ courses, and 10+ instructors while enabling real-time progress tracking and seamless course management.
- Built interactive admin and instructor dashboards, improving course management efficiency by 40%, and developed a student dashboard, enhancing resource accessibility and engagement for 90% of active users.
- Revamped website UI to enhance course appeal, boosting enrollments by 40% and increasing coaching center revenue from ₹80,000 to ₹170,000 per month through improved student engagement.

LEADERSHIP & OTHER AFFILIATIONS

Google Developer Student Club

York University, Toronto

Vice President (Co-Lead)

June 2024 – Present

- Led the recruitment and onboarding of 26 core team members, building a diverse and effective tech community.
- Managed communication of Club, with 847+ member Discord server, increasing event attendance by 25% through targeted outreach and strategic announcement campaigns.

EDUCATION

York University

Toronto, Canada

Post-Graduation Certificate in Back-End and Blockchain Development

Expected May 2025

The Maharaja Sayajirao University

Vadodara, India

Bachelor of Computer Applications (Honours) | Cumulative GPA: 8.99/10.00

June 2020 - May 2023

ACADEMIC PROJECTS

ProfileX.dev - GitHub Profile Readme Generator

- Developed a GitHub Profile README Builder web app, enabling developers to create stunning profiles in minutes, with 100+ users benefiting from streamlined customization. Build using React, Bootstrap, and ContextAPI.
- Deployed on Vercel for fast and scalable hosting. Project Link - <https://www.profilex.dev/>

Café/Restaurant Management System

- Designed a QR-based food ordering system with real-time kitchen ticketing, and invoice generation. Sold the web based software to 78 Degree Café (Vadodara, India) for ₹28,000.
- Built using React, Node.js, Express, and MongoDB. Demo Link - <https://78degreescafe.netlify.app/>
